

Heritage Site Visit - Sarkhej Roza

Architectural Assistantship

Semester - III

An excursion to a Heritage Site was meticulously arranged for the students of Architectural Semester 3. During this visit, the students engaged in the art of live sketching, a valuable technique that enhances their ability to keenly observe diverse locations and objects, while also fostering an understanding of proportions. The chosen site for this enlightening experience was the Sarkhej Roza, a magnificent architectural masterpiece that harmoniously blends elements from both Muslim and Hindu architectural traditions.
