Committee Discussion

The Examination Committee met to discuss the grievances raised by M. Pharm students. Here's a summary of the key points:

- **Need for a Separate Student Portal:** Students from the M. Pharm-Regulatory Affairs program requested a dedicated student portal for easier access to exam results. The committee acknowledged the value of this request and has submitted a proposal to management for the development of a separate student portal.
- **Adoption of Digital Evaluation System:** Students from the M. Pharm-Pharmaceutical Technology program expressed a desire for a digital evaluation system. The committee recognized the potential benefits and has submitted a request to management for the adoption of a software-based evaluation system.
- **Separate Examination Office:** M. Pharm-Quality Assurance students requested a separate examination office. The committee's interpretation might differ from the students' intent. We already have a dedicated examination room specifically for the exam department to solve exam related queries.

Next Steps

The Examination Committee recommends the following next steps:

- The committee following up with management on the proposals regarding the student portal and digital evaluation system.
- The committee clarify the concept of a "separate examination office" with the M.Pharm-Quality Assurance students to understand their specific needs. This might involve improved communication channels, dedicated staff for handling complaints, or a combination of both.

Conclusion

The LJ Institute of Pharmacy Examination Committee takes student concerns seriously and is actively working to improve the examination process. The committee's efforts towards a dedicated student portal, a digital evaluation system, and a dedicated space for exam functions demonstrate a commitment to addressing student grievances. Continued communication and collaboration between the committee, management, and students will ensure a more efficient and student-friendly examination experience.

Subject: Grievance Regarding Communication of Exam Results and
the need for a Separate Student Portal

Respected Sir/modum,

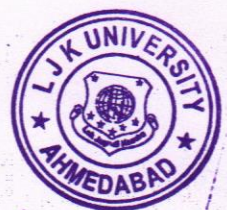

We, the student of M. Pharm in the Regulatory Affairs branch at L.J Institute of Pharmacy are writing to express our concern regarding the current communication process related to the release of exam results. We believe that the introduction of a separate student portal on the college website dedicated to displaying exam results would significantly improve this process. To address these issues, A secure login system can be implemented to ensure that only authorized students can access their results. This would protect the privacy of students academic information and provide a personalized experience.

We kindly request the examination department to consider our suggestions.

Subject: Grievance regarding evaluation and suggestion for adoption
of digital Evaluation Systems.

Respected Sir/Madam,

We the students of M.Pharm in the Pharmaceutical Technology branch
at L.T. Institute of Pharmacy, are writing to express our
concerns regarding to suggest the adoption of digital evaluation
systems to enhance accuracy and consistency in grading.
We believe that the root cause of these problems lies in
limitations of traditional manual evaluation process, which is
susceptible to human errors and subjective biases.

We are confident that the adoption of these digital evaluation
systems will not only reduce human errors and improve
consistency in grading but also enhance the overall education
experience for both students and faculty. We kindly request
the examination department to consider our suggestions and take
the necessary steps to implement these changes.

Thank you for your attention to this matter.

Yours sincerely,
Siddarth Triswal.

Subject :- Grievance regarding handling of Exam related complaints and proposal for establishment of a dedicated committee.

Respected Sir/Madam,

We, the students of M.Pharm in the Quality Assurance branch at L.J. Institute of Pharmacy, are writing to bring to your attention our concerns regarding the current process for handling exam-related complaints. We believe that the establishment of dedicated committee or office specifically for addressing exam-related grievances would significantly enhance the efficiency & effectiveness of complaint resolution process.

Currently, the process for submitting & addressing exam-related complaints appears to be unstructured & inconsistent, leading to delays and inadequate resolution of issues.

Thank you for your attention to this matter. We look forward to a positive response and are willing to provide any further information or assistance required to facilitate this improvement.

**Minutes of the First Meeting of Board of Directors of L.J. University
held on 19th September 2020 at 4.00 P.M. in the LJU Board Room,
Ahmedabad.**

Item No. 1: Welcome by Dr. Dinesh Awasthi, Chairman:

The 1st Meeting of the Board of Management of L.J. University was held on 19th September 2020 (Friday), in the LJU Board Room, Ahmedabad. Prof. Dinesh Awasthi, Vice-Chancellor, L.J. University chaired the Meeting. He welcomed the Members and sketched a brief outline of the future business transactions in the University. The following members were present in the Meeting:

1. Dr. Dinesh Awasthi	Chairman
2. Dr. Manish D. Shah	Member
3. Dr. Viral Shah	Member
4. Shri Hiranmay Mahanta	Member
5. Dr. P.K. Mehta	Member
6. Dr. Siddharth Singh Bist	Member
7. Shri Himanshu Thakkar	Member
8. Dr. Shreeraj Shah	Member
9. Shri Minesh Shah	Member Secretary

Item No.: Introduction of the Members by Dr. Manish Shah:

Dr. Manish Shah joined the Chairman in welcoming all the members to the 1st Meeting of the Board of Management. He hoped that the deliberation would help a great deal in giving directions to the overall functioning of the University.

Item No. 2: About the University and its vision by Dr. Manish Shah, Vice President of the University:

Dr. Manish Shah shared the overall vision and philosophy of the University. He emphasized that the University should contribute to society to justify its existence. He recalled that in the past, students of L.J. Institutions contributed a great deal to rural development. They had developed websites of all the villages of Ahmedabad district and trained local human resources in operating the same. He proposed that the University could add value to the lives of people in the field of health care, education, skills, etc. The L.J. Society already runs a clinic on wheels. He suggested a similar initiative that could be called "Smile on Wheels", to provide dental services to girl children, who suffer uneven teeth, by giving an evenness to their dental.

He also expressed concern about the unfortunate result of 10th Class in Gujarat, in which almost 4,00,000 students failed. How to help this segment,

Manish
Shah

he asked? He also suggested that the University could take up some programmes to improve overall education. He reemphasized the need for higher involvement of the University in the social sector.

Concluding his remarks, he informed the house that the School of Architecture is the first constituent unit of L.J. University. It needs to be ratified by the Academic Council, which will be done in due course of time.

Item No. 4: Inputs by the Members on the future direction of the University:

The Chairman appreciated the views of Dr. Manish Shah. Subsequently, he invited views of the members on issues concerning the overall management of the University.

Dr. PK Mehta stated that L J should be a University with a difference in letter and spirit. Only when our academic standards, course and curriculum, our pedagogy are unique, we will be able to claim it as a university with a difference. There should be adequate operational autonomy to the departments and faculties. The statute has been made. Now there is a need to make regulations. The University should do it quickly.

Dr. Siddharth Bist recounted his experience with a Japanese client, in organizing a hackathon. He shared that he was pleasantly surprised by the performance of the first-year students, who had limited exposure to management tools. It indicates that problem-based learning is very useful. It could also be very effective in technical education.

Shri Himanshu Thakkar stated that the School of Architecture is the first school to be a constituent of the L.J. University. The School is also responsible to the Council of Architecture, the professional body for the domain. He emphasized a module-based teaching methodology to be adopted, for which he wanted to organized consultations. This needed constitution of a Board of Studies, so that he could proceed in this direction, urgently. The Chairman assured him that he would get due directions from the Registrar, by 21st September 2020.

Dr. Shreeraj Shah focused his observations on a few professional and infrastructural issues. First, he said that there is no official body on the campus that looks after the disciplinary issues. There is also a need to create a legal cell to meet any exigencies.

He also emphasized the need to regulate teaching timings and synchronizing them with other activities like sports.

He felt that there should be a parking policy and the University should the campus as a 'NO HONKING ZONE' or a SILENCE ZONE.

Manish
Shah

He also argued for establishing a virtual campus and focus distance learning. In this context, he suggested that there should be a bandwidth policy at the University level. There should also be a social media cell to coordinate and regulate digital infrastructure. He felt a need for a provision or system whereby the best practices of each department or faculty could be shared.

He also suggested that the University should have its own health and hygiene policy.

He also argued for scholarships for poor but meritorious students. Dr. Manish Shah intervened and informed that there is already a provision of the free ship for needy students, to the tune of five per cent of the total student strength. Nevertheless, if there is any genuine and deserving case, the University will be too happy to support such a student.

Dr. Viral Shah felt the need for higher integration among the various institutions, as we are a university. The question is how to achieve it? What is our road map? He suggested developing a road map to execute such a task.

He shared his concern for the quality of students that the L. J. Institutions get. He suggested that the University must develop a strategy to attract good students to our programmes. It should earmark substantial resources to promote the programmes. Dr. Manish Shah agreed that though L. J., as an organization, has never spent any money on promotion of the institutions, it has not adversely affected our intake, so far. Nevertheless, if such a need arises, the resources will be made available, he assured.

At this stage, the Chairman suggested that instead of promoting the University through media, one could think of approaching schools and promoting the University by organizing various activities like innovation challenges etc. We should identify good schools in rural areas and attempt a backward integration by helping them upgrade. It will generate goodwill for the University on the one hand and create a pipeline of the students on the other.

Dr. Viral Shah, taking a cue from the concern shared by Dr. Manish Shah about a large number of failures in the 10th standard this year, asked can we think of a bridge course for them, he asked?

He suggested that we should permit persons holding professional qualifications like C.A., C.S., etc. to register for our Ph. D. Programmes.

He also suggested to create an Industry-Academia Cell wherein industrialists could come and spend some time in an academic environment, and share their ideas on various issues concerning industry/business.

Manish Shah
[Signature]

It was decided to form a committee to chalk out strategies for promotion and backward integration, to create a pipeline of good quality students, and also to suggest a few programmes that would add value to schools and teachers.

Shri Hiranmai Mahanta emphasized on collective excellence, across the faculties and departments to make L.J. University a center of excellence. Before looking outside for collaborations, we should look inside to collaborate for various courses and use the strength of each other, he argued. There is also a need for digital technology integration, he felt. He suggested to evolve a policy of virtual certification. He felt that there is a need to carry out a comprehensive analysis of innovations in pedagogy and delivery of content across countries and document the best practices.

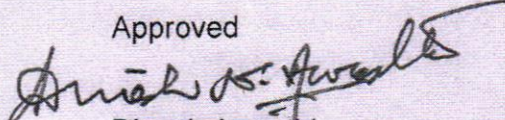

He suggested that we should develop a short-term annual plan and a 5-year perspective plan for the University. For example, in the long-term, we can think of solar, electric vehicles, new technologies, etc. to focus. For this, one could think of creating a 'Knowledge Management Centre. People like Prof. Sanjay Verma of IIM could be roped in for such an exercise.

Prof. PK Mehta suggested that we should share 2-3 slides with the HoDs to guide them to develop a department-wise plan. He called for crafting a broad operational policy frame with adequate autonomy to various units?

Chairman Dr. Awasthi thanked the members for their contribution to the discussions in the First Meeting of the Board of Management. He said the University administration attaches immense value to the suggestions. He assured that the University would give due consideration to all the suggestions given by the Members.

Meeting ended with a vote of thanks to the Chair.

Observations:

- Since action on A "Smile-on-Wheels" on the lines of "Clinic-on-Wheels", could not be initiated due to COVID-19, Pandemic effect, it was decided to initiate the activity once situation becomes normal.
- Similarly, the plan to groom a few of the 4,00,000 students who had failed in maths could also not be undertaken due to COVID-19. Since the context has changed as over two years have passed since the results of 10th class were declared, the project was dropped. Nevertheless, it was agreed in principal that LJ University should take some initiatives to upgrade educational standard of the students in a few schools in rural Gujarat, preferably in the districts adjacent to Ahmedabad, at an appropriate time.
- With reference to the Proctorial Board, the members suggested to upload the details on the University Portal.
- A few members suggested to declare University campus as a 'NO HONKING ZONE' or a 'SILENCE ZONE'. It was also suggested to put up signboards to earmark parking spaces for various segments viz. faculty, staff, students and visitors.
- It was suggested to create a 'Knowledge Management Centre' in the University, to harness knowledge being generated by the faculty and students of the university. People like Prof. Sanjay Verma of IIM-A could possibly be involved in such an exercise. It was decided that Prof. Siddharth Bist will anchor the Centre.
- University should be able to attract good students to its programmes. It should earmark adequate funds for promotional activities. It was decided to set up a committee to deliberate on the subject and submit its recommendations to the Vice chancellor, which could further be discussed and finalised in the BoM.
- Dr. Manish Shah informed the BoM on behalf of the Lok Jagruti Trust that the University will offer free education to most need and talented students, every year, as a part of its commitment to create a just and equitable society where poverty doesn't become a bane for the committed learners from poor families. It was decided that the University will also organise a competition among the students studying in the grant in aid school in nearby villages, to avail this fellowship. The Members appreciated the gesture of the Trust.
- The Chairman suggested that instead of promoting the University through media, one could think of approaching schools and promoting the University by organizing various activities like innovation challenges, etc. The Members felt that the University should identify good schools in rural areas by helping them upgrade. It will generate goodwill for the University. It was decided to form a committee under the Chairmanship of Dr. Viral Shah. However, this project will be launched after detailed planning and availability of the committed human resources.

Item No. 7: Approval of Appointment of Professor Emeritus, Distinguished Professor and Distinguished Senior Fellow and Distinguished Fellows:

The Members approved the recommendations of Academic Council for creating the positions of Professor Emeritus, Distinguished Professor, Distinguished Senior Fellow and Distinguished Fellows and Visiting Fellows. These positions could be offered to distinguished Indian and foreign academicians. The BoM also authorized the Vice chancellor to form a Committee to look into such proposals from various Schools to make appropriate recommendations to the Vice Chancellor who in-turn will approve/reject the recommendations for such appointments. The Vice chancellor was also authorized to put the systems for such appointments in place.

In view of the in-principle approval, the BoM approved the proposal to appoint a few distinguished academicians on these positions. The following resolution was passed unanimously:

Item No. 1: Welcome by Dr. Dinesh Awasthi, Chairman:

The 1st Meeting of the Board of Management of L.J. University was held on 19th September 2020 (Friday), in the LJU Board Room, Ahmedabad. Prof. Dinesh Awasthi, Vice-Chancellor, L.J. University chaired the Meeting. He welcomed the Members and sketched a brief outline of the future business transactions in the University. The following members were present in the Meeting:

1. Dr. Dinesh Awasthi	Chairman
2. Dr. Manish D. Shah	Member
3. Dr. Viral Shah	Member
4. Shri Hiranmay Mahanta	Member
5. Dr. P.K. Mehta	Member
6. Dr. Siddharth Singh Bist	Member
7. Shri Himanshu Thakkar	Member
8. Dr. Shreeraj Shah	Member
9. Shri Minesh Shah	Member Secretary

Item No.: Introduction of the Members by Dr. Manish Shah:

Dr. Manish Shah joined the Chairman in welcoming all the members to the 1st Meeting of the Board of Management. He hoped that the deliberation would help a great deal in giving directions to the overall functioning of the University.

Item No. 2: About the University and its vision by Dr. Manish Shah, Vice President of the University:

Dr. Manish Shah shared the overall vision and philosophy of the University. He emphasized that the University should contribute to society to justify its existence. He recalled that in the past, students of L.J. Institutions contributed a great deal to rural development. They had developed websites of all the villages of Ahmedabad district and trained local human resources in operating the same. He proposed that the University could add value to the lives of people in the field of health care, education, skills, etc. The L.J. Society already runs a clinic on wheels. He suggested a similar initiative that could be called "Smile on Wheels", to provide dental services to girl children, who suffer uneven teeth, by giving an evenness to their dental.

He also expressed concern about the unfortunate result of 10th Class in Gujarat, in which almost 4,00,000 students failed. How to help this segment,

Manish
Shah

he asked? He also suggested that the University could take up some programmes to improve overall education. He reemphasized the need for higher involvement of the University in the social sector.

Concluding his remarks, he informed the house that the School of Architecture is the first constituent unit of L.J. University. It needs to be ratified by the Academic Council, which will be done in due course of time.

Item No. 4: Inputs by the Members on the future direction of the University:

The Chairman appreciated the views of Dr. Manish Shah. Subsequently, he invited views of the members on issues concerning the overall management of the University.

Dr. PK Mehta stated that L J should be a University with a difference in letter and spirit. Only when our academic standards, course and curriculum, our pedagogy are unique, we will be able to claim it as a university with a difference. There should be adequate operational autonomy to the departments and faculties. The statute has been made. Now there is a need to make regulations. The University should do it quickly.

Dr. Siddharth Bist recounted his experience with a Japanese client, in organizing a hackathon. He shared that he was pleasantly surprised by the performance of the first-year students, who had limited exposure to management tools. It indicates that problem-based learning is very useful. It could also be very effective in technical education.

Shri Himanshu Thakkar stated that the School of Architecture is the first school to be a constituent of the L.J. University. The School is also responsible to the Council of Architecture, the professional body for the domain. He emphasized a module-based teaching methodology to be adopted, for which he wanted to organized consultations. This needed constitution of a Board of Studies, so that he could proceed in this direction, urgently. The Chairman assured him that he would get due directions from the Registrar, by 21st September 2020.

Dr. Shreeraj Shah focused his observations on a few professional and infrastructural issues. First, he said that there is no official body on the campus that looks after the disciplinary issues. There is also a need to create a legal cell to meet any exigencies.

He also emphasized the need to regulate teaching timings and synchronizing them with other activities like sports.

He felt that there should be a parking policy and the University should the campus as a 'NO HONKING ZONE' or a SILENCE ZONE.

Manish 522
de

He also argued for establishing a virtual campus and focus distance learning. In this context, he suggested that there should be a bandwidth policy at the University level. There should also be a social media cell to coordinate and regulate digital infrastructure. He felt a need for a provision or system whereby the best practices of each department or faculty could be shared.

He also suggested that the University should have its own health and hygiene policy.

He also argued for scholarships for poor but meritorious students. Dr. Manish Shah intervened and informed that there is already a provision of the free ship for needy students, to the tune of five per cent of the total student strength. Nevertheless, if there is any genuine and deserving case, the University will be too happy to support such a student.

Dr. Viral Shah felt the need for higher integration among the various institutions, as we are a university. The question is how to achieve it? What is our road map? He suggested developing a road map to execute such a task.

He shared his concern for the quality of students that the L. J. Institutions get. He suggested that the University must develop a strategy to attract good students to our programmes. It should earmark substantial resources to promote the programmes. Dr. Manish Shah agreed that though L J, as an organization, has never spent any money on promotion of the institutions, it has not adversely affected our intake, so far. Nevertheless, if such a need arises, the resources will be made available, he assured.

At this stage, the Chairman suggested that instead of promoting the University through media, one could think of approaching schools and promoting the University by organizing various activities like innovation challenges etc. We should identify good schools in rural areas and attempt a backward integration by helping them upgrade. It will generate goodwill for the University on the one hand and create a pipeline of the students on the other.

Dr. Viral Shah, taking a cue from the concern shared by Dr. Manish Shah about a large number of failures in the 10th standard this year, asked can we think of a bridge course for them, he asked?

He suggested that we should permit persons holding professional qualifications like C.A., C.S., etc. to register for our Ph. D. Programmes.

He also suggested to create an Industry-Academia Cell wherein industrialists could come and spend some time in an academic environment, and share their ideas on various issues concerning industry/business.

Manish Shah
[Signature]

It was decided to form a committee to chalk out strategies for promotion and backward integration, to create a pipeline of good quality students, and also to suggest a few programmes that would add value to schools and teachers.

Shri Hiranmai Mahanta emphasized on collective excellence, across the faculties and departments to make L.J. University a center of excellence. Before looking outside for collaborations, we should look inside to collaborate for various courses and use the strength of each other, he argued. There is also a need for digital technology integration, he felt. He suggested to evolve a policy of virtual certification. He felt that there is a need to carry out a comprehensive analysis of innovations in pedagogy and delivery of content across countries and document the best practices.

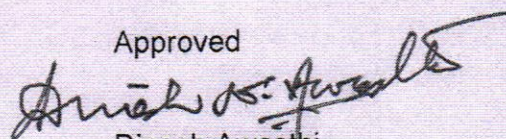

He suggested that we should develop a short-term annual plan and a 5-year perspective plan for the University. For example, in the long-term, we can think of solar, electric vehicles, new technologies, etc. to focus. For this, one could think of creating a 'Knowledge Management Centre. People like Prof. Sanjay Verma of IIM could be roped in for such an exercise.

Prof. PK Mehta suggested that we should share 2-3 slides with the HoDs to guide them to develop a department-wise plan. He called for crafting a broad operational policy frame with adequate autonomy to various units?

Chairman Dr. Awasthi thanked the members for their contribution to the discussions in the First Meeting of the Board of Management. He said the University administration attaches immense value to the suggestions. He assured that the University would give due consideration to all the suggestions given by the Members.

Meeting ended with a vote of thanks to the Chair.

Observations:

- Since action on A "Smile-on-Wheels" on the lines of "Clinic-on-Wheels", could not be initiated due to COVID-19, Pandemic effect, it was decided to initiate the activity once situation becomes normal.
- Similarly, the plan to groom a few of the 4,00,000 students who had failed in maths could also not be undertaken due to COVID-19. Since the context has changed as over two years have passed since the results of 10th class were declared, the project was dropped. Nevertheless, it was agreed in principal that LJ University should take some initiatives to upgrade educational standard of the students in a few schools in rural Gujarat, preferably in the districts adjacent to Ahmedabad, at an appropriate time.
- With reference to the Proctorial Board, the members suggested to upload the details on the University Portal.
- A few members suggested to declare University campus as a 'NO HONKING ZONE' or a 'SILENCE ZONE'. It was also suggested to put up signboards to earmark parking spaces for various segments viz. faculty, staff, students and visitors.
- It was suggested to create a 'Knowledge Management Centre' in the University, to harness knowledge being generated by the faculty and students of the university. People like Prof. Sanjay Verma of IIM-A could possibly be involved in such an exercise. It was decided that Prof. Siddharth Bist will anchor the Centre.
- University should be able to attract good students to its programmes. It should earmark adequate funds for promotional activities. It was decided to set up a committee to deliberate on the subject and submit its recommendations to the Vice chancellor, which could further be discussed and finalised in the BoM.
- Dr. Manish Shah informed the BoM on behalf of the Lok Jagruti Trust that the University will offer free education to most need and talented students, every year, as a part of its commitment to create a just and equitable society where poverty doesn't become a bane for the committed learners from poor families. It was decided that the University will also organise a competition among the students studying in the grant in aid school in nearby villages, to avail this fellowship. The Members appreciated the gesture of the Trust.
- The Chairman suggested that instead of promoting the University through media, one could think of approaching schools and promoting the University by organizing various activities like innovation challenges, etc. The Members felt that the University should identify good schools in rural areas by helping them upgrade. It will generate goodwill for the University. It was decided to form a committee under the Chairmanship of Dr. Viral Shah. However, this project will be launched after detailed planning and availability of the committed human resources.

The Members discussed regarding the age of Superannuation of the University Employees. It was decided that the age of superannuation should be in line with good practices being followed by Central Universities, Institutions of Excellence and good private universities, in the case of faculty members and in-line with the State Government Employees in the case of Administrative and support staff. Accordingly, the following pattern was approved:

1. In the case of the University Faculty, the superannuation age is stipulated to be 65 years. However, at the age of 62, a comprehensive review of the suitability of the concerned faculty will be undertaken by a 7-Member Committee consisting of the Vice Chancellor as the Chairperson, two external academicians of eminence from the discipline (to be nominated by the Vice Chancellor in consultation with the Governing Board), Dean of the School, Head of the concerned Department, and Two Nominees of the Governing Board of

Minister

- the University. The extension from 62 to 65 years will be given to a faculty only if the Committee favourably recommends for the extension her/his tenure. Otherwise, the faculty concerned will retire at the age of 62 years. Such process should be initiated at least six months in advance of taking the decision on extension or termination of a faculty's tenure.
2. The superannuation age for a Non-teaching Staff Members will be 58, as in the case of the State Government.
 3. The superannuation age for Class IV Employees shall be 60 years.
