 OEC: Open Elective Courses PEC: Program Elective Courses

1. Teaching and Evaluation Scheme

Teaching Hours / Week / Credits				Evaluation Scheme			
L	T	P	Total Credit	CCE	SEE (Th)	SEE (Pr)	TOTAL
0	0	6	3	100	-	100	200

Legends:
 L: Lectures T: Tutorial P: Practical
 CCE: Continuous & Comprehensive Evaluation
 SEE (Th): Semester End Evaluation (Theory)
 SEE (Pr): Semester End Evaluation (Practical)

2. Prerequisites

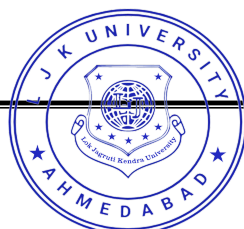

- ✓ Interior Design 1
- ✓ Architectural Design
- ✓ Building Materials
- ✓ Advanced Building Materials
- ✓ Sketching

3. Rationale

This course enables the designer (student) to create harmoniously designed functional interior environments. The curriculum will provide the opportunities to use computer-aided design and concept of lighting, color, modern materials, furnishings, and finishes which are in vogue. This course helps one understand the properties of different materials and fittings and how they should be used appropriately. It also incorporates knowledge of the effects of different types of finishes in interior spaces and how and where they should be used.

4. Objectives

- ✓ Develop detailed design with all its elements for given interior design space to achieve the best possible functional value, aesthetics, and comfort within a budget.
- ✓ Assess the requirements of the client for a given interior design project.
- ✓ Generate the conceptual drawings and sketches for the interior design.
- ✓ Prepare detailed project reports of proposed and existing interior projects.
- ✓ Design suitable furniture for given interior space such as kitchen, showroom, drawing room, lobby, etc.

5. Contents

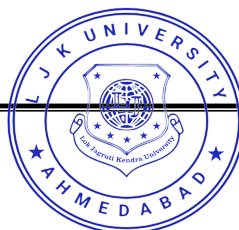

Unit No.	Unit Name	Topics	Learning Outcomes	% Weightage	Hours
1.	Space Layout	1.1. Introduction to: a) Set of interior design drawings prepared by a practicing architect or an interior designer. b) Detailed drawings about on-going interior projects.	<ul style="list-style-type: none"> • Prepare interior space layout of a given restaurant or a corporate office. • Draw all drawings for interior design projects. 	14	22
2.	Furniture Layout	2.1. Furniture layout details. 2.2. Drawings and views of furniture layout.	<ul style="list-style-type: none"> • Prepare a detailed space layout plan showing complete interiors and furniture. • Prepare views for each detail. 	18	12
3.	Flooring Detail	3.1. Types of interior flooring materials concerning their use in interior space and their properties required in commercial space. 3.2. Construction details of flooring materials 3.3. Types of finishing e.g. polishing for stone, etc.	<ul style="list-style-type: none"> • Apply the principles of designing a flooring pattern for a given commercial unit. • Put into practice the latest materials and finishes available in the market. 	20	10
4.	Design of Other Interior Elements	4.1. Furniture details 4.2. False ceiling and lighting layout. 4.3. Wall finish details with specifications.	<ul style="list-style-type: none"> • Develop basic drawings with all necessary details for used material finishes, specification of false ceiling paneling, pelmets, drapery rods, etc. 	28	30
5.	Budget	5.1. Budget of the whole project.	<ul style="list-style-type: none"> • Prepare a detailed budget for the whole project incorporating every aspect of interior design. 	20	10

Total Hours **84**

6. List of Practicals / Exercises

The practicals/exercises have been properly designed and implemented in an attempt to develop different types of skills, so that students can acquire the competencies/programme outcomes. Following is the list of practicals/exercises.

Sr. No.	Practicals / Exercises	Key Competency	Hours
1.	Case study of the given interior project.	Knowledge about actual spaces and their integration.	08
2.	Prepare the layout of the given project.	For a better understanding of the design.	04
3.	Prepare a set of drawings for the given project.	For a complete understanding of the space.	06
4.	Survey of available materials in the market.	Knowledge about various materials available in the market.	06
5.	Prepare furniture layout.	Knowledge about space management.	06
6.	Prepare drawings showing each detail required for furniture.	Knowledge about material joinery and exact design.	08
7.	Prepare flooring layout.	For understanding the type of flooring.	06
8.	Prepare false ceiling and lighting layout.	Knowledge about various designs and materials applied to the false ceiling.	06
9.	Prepare drawings showing wall finish details.	For a better understanding of the type of finish to be applied.	04
10.	Prepare drawings showing curtains, drapery rods, etc.	Knowledge about the types of curtains and drapery rods used and available in the market.	04
11.	Develop sections required for the whole commercial project showing necessary details.	Knowledge about the actual design and inter-space relationship.	06
12.	Draw sketches required for the interior views of the project.	For a better understanding of the interior space provided.	06
13.	Prepare a budget for the whole project.	Knowledge about the actual cost of different materials and the estimate of the whole project.	04
14.	Project-based on the application of various materials and designs used in interior design.	For a better practical understanding of the current on-field situations.	10
Total Hours			84

Note: Since theory would also be discussed during the practical time, if students are not able to complete the drawings in the studio during the allotted time, then they have to take out time for completing their work after college hours, during weekends, and on holidays.
