L	T	P	Total Credit	CCE	SEE (Th)	SEE (Pr)	Total
0	0	6	3	50	-	50	100

**Legends:** L: Lectures      T: Tutorial      P: Practical  
 CCE: Continuous & Comprehensive Evaluation  
 SEE (Th): Semester End Evaluation (Theory)  
 SEE (Pr): Semester End Evaluation (Practical)

## 2. Prerequisites

- ✓ Knowledge of HyperText Markup Language and Cascading Style Sheets
- ✓ Knowledge of web pages and websites

## 3. Rationale

In the age of consuming content in different modes, a website is the most preferable mode. To make a website from scratch one needs to learn many different web development technologies like HTML, CSS, Server-side scripting languages, databases, etc. But WordPress is a tool that simplifies the process of creating a simple content management site. Developing a website using WordPress only takes very little of anyone's time. After completion of this course, the student will be able to utilize WordPress to create a professional website like a blogging site, an e-commerce site, a content management system, and other websites.

## 4. Objectives

- ✓ To give idea about basics of Content Management Systems
- ✓ To explain methods of creating a website using WordPress Tool
- ✓ To create different types of content and managing websites using WordPress tool.

## 5. Contents
